

From the Principal's Desk

The key to success is not being a busy person, but being an effective one.

In today's fast-paced world, the ability to organize and manage time effectively is a valuable skill that can benefit students in all aspects of their lives. A well-structured schedule can help students stay focused, reduce stress, and achieve their goals.

At Ryan Education School, we emphasize the importance of organization and time management. We encourage our students to develop effective study habits, prioritize tasks, and set realistic goals. By practising these skills, we are equipping our students with the tools they need to succeed academically and beyond.

As parents and guardians, your role is crucial in supporting your child's organizational skills. Encourage them to create a daily planner, establish a designated study space, and set a consistent recreational time and bedtime routine. By providing a structured and synchronized schedule, you can reinforce the importance of organization and time management.

Remember, organization and scheduling are not about being rigid; they are about creating a framework that allows for flexibility and balance. By teaching our children these valuable skills, we are investing in their future success making them strong enough to surmount challenges in the future.

Quote of the month

“The beautiful thing about learning is that nobody can take it away from you.”

- B. B. King

ARTICLE FROM COORDINATOR

Culture redefines the bond amongst us!

Culture gives us a great time to move out of our rooms and leave our gadgets to communicate, plan and work together. We talk, shop and connect with people to define our culture in various ways. We clean, decorate and explore ideas and themes to showcase the best outcome for our festivities.

This time gives us a deep connection while we explore and fulfill our duties by playing the role of a genuine member of the family. The society accepts and appreciates the worth of the minute task done by even the youngest member of the family.

Our culture creates the way to develop affection and trust amongst us. It bridges the gap of generations, applied technology, learning styles of society and community principles.

- Ms. Shikha Bhatnagar,
Coordinator

ACTIVITIES

Colour Sorting Game - Nursery

The game was a group activity where our young learners worked together to sort the balls according to the colour of the tables. This activity kept the children engaged and helped reinforce their understanding of colours in a playful way.

It enhances colour recognition, develops motor skills through physical activity and encourages concentration and listening skills. It fosters a sense of achievement in completing a task.

Greedy Alligator Math Activity - Prep II

In this engaging and interactive activity, students practiced comparing numbers using greater than ($>$) and less than ($<$) symbols. Each student approached the specially designed activity board, where a "greedy alligator" helped them to visualize the concepts. The alligator's mouth opens towards the greater side, providing a fun and memorable way to distinguish between numbers. One by one, students participated, eagerly feeding the alligator with a number of candies, and delightedly observed how its mouth opened to devour the larger value. This hands-on activity sparked excitement and understanding among students as they grasped essential math concepts.

Safety Rules - Prep II

To make the students understand about the basic safety rules in class as well as in school, an interactive safety rules activity was conducted for the prep II students.

ACTIVITIES

In this activity, the teacher explained the safety rules to the students which they have to follow at school with the help of flash cards. Students actively participated in the activity. They enacted the activity and were having fun by taking part in the activity. This interactive activity proved to be both informative and enjoyable, as students eagerly participated and developed their knowledge of basic rules at school.

It was informative as well as fun filled activity.

Letter Matching Fun Prep I

Pre-primary students of prep I developed phonetic awareness and alphabet recognition skills through this interactive matching activity. Using uppercase and lowercase wooden puzzles, students did matching of capital letters with their corresponding small letters, reinforcing letter familiarity and understanding. This hands-on exercise enhances visual discrimination, fine motor skills, and problem-solving abilities, laying the foundation for reading and writing.

Balancing & Jumping Activity - Prep II 'B'

This innovative sports activity combines physical exercise with mindful indulgence, encouraging participants to strike a balance between enjoying life's pleasures and maintaining a healthy lifestyle.

The benefits that students get from this activity are:

ACTIVITIES

Encourages physical fitness and mental well-being in Pre-primary kids.

Fosters self-awareness and mindful eating habits

Promotes balance and moderation in daily life

A healthier relationship with food

Clay Dough Shape Creation Prep I

To develop fine motor skills, creativity, and shape recognition, clay dough activity was conducted for the prep I students.

Using colorful clay dough, rolling pins, children mould and shape various forms like circles, squares, rectangles, and triangles. This tactile exploration introduces geometry concepts, enhances hand-eye coordination, and fosters self-expression. As students proudly showcase their creations, they build confidence and artistic pride.

Find & Touch The Letter Nursery

The "Find and touch the letter" activity is a fun and interactive way to help nursery students improve their letter recognition while enhancing their physical coordination. Some alphabet letters were taped to the walls, and students were asked to touch the correct letter when it's called out. This was a group activity.

It promotes early literacy skills, motor development, and listening, making learning both dynamic and enjoyable for young learners.

ACTIVITIES

Sight Words Prep II

Sight words are high-frequency words that are recognized and read automatically, without sounding out or decoding. These words are essential for fluent and efficient reading, as they appear frequently in everyday texts.

In this activity, the teacher divided the class into 4 groups and then Flash cards of sight words were displayed on the table. After that the teacher called out the sight word.

Students searched and picked up the corresponding flash card of sight words. Students read the sight word aloud.

This activity develops essential reading skills, boosts confidence.

This activity made learning fun. Students enjoyed the activity.

National Symbol Identification - Prep II

For an engaging lesson, prep II students delved into India's rich cultural heritage by exploring national symbols. With curiosity sparking, students eagerly selected flash cards featuring iconic symbols. "I chose the Ashoka Chakra!" exclaimed [Student's Name]. "It's on our Indian flag and represents dharma, or righteousness. It reminds us to follow the path of truth and justice." The class resonated with excitement as peers shared insights on the National Emblem, Lotus, Peacock, Tiger and Tricolor. Learning through an activity helps.

ACTIVITIES

-Peer sharing, fostering teamwork and critical thinking.

Also, the children felt national pride, unity and cultural awareness.

Finger Puppet Fun - Prep I

Students of prep I enthusiastically crafted and performed with finger puppets, exploring creativity and imagination. Using colorful paper, felt, and glue, they designed adorable animal characters and staged interactive stories, developing essential skills in fine motor control, storytelling, and self-expression. This engaging activity fostered teamwork, confidence, and language skills, sparking a love for creative play and storytelling.

Thumbprint Thankyou Prep I

Little Ryanites did a heartwarming activity to express gratitude to farmers, parents, and food providers. Using paint, students created colorful thumbprints on paper, symbolizing the fingerprints of love on our plates. This engaging activity develops fine motor skills, fosters creativity, and instills appreciation for all the people around them. Students learnt the importance of gratitude and community support.

Veggie Printing Fun - Prep I

Students of grade prep I explored texture, color, and creativity through vegetable printing using cotton buds and cotton balls, used as unique stamps, dipped and pressed onto a given activity sheet to create vibrant patterns. This engaging activity develops fine motor skills, colour & texture

ACTIVITIES

recognition, and fosters self-expression. Students did experiment with various vegetable shapes, colors, and techniques, producing individualized artworks. It was a delightful and enriching experience for our young artists.

IG Sound Words - Prep II

Kindergarten class explored the "ig" sound through an engaging interactive activity. Using a specially prepared "ig" sound board, students enthusiastically pronounced various words containing the target sound, such as "big," "pig," and "dig." They demonstrated impressive phonemic awareness and accuracy, confidently recognizing and reading the words. The activity sparked joy and excitement for learning, with students thoroughly enjoying the hands-on experience. Their eagerness to participate and positive attitude toward phonics were truly commendable.

Exploring Colours - Nursery

Exploring Colours with Our Little Learners!

Our nursery kids had a blast diving into the vibrant world of colors through engaging activities like color sorting, chair race, and a fun-filled colour hunt. They explored different shades and hues while enhancing their cognitive and motor skills.

Star Of The Week

Star of the week is an initiative to make every child feel special and celebrate his uniqueness. Every week, a student is designated as "Star of the Week". The student's parents visit the class and interact

ACTIVITIES

with other students of the class. They share information and anecdotes about their child and hear about their child from his classmates. Apart from creating healthy self-esteem, this activity also facilitates a strong home-school partnership.

Stars of the week of September month are:

Karvik Nirmal- Prep II 'B', Aarush Tripathi- Prep II 'B', Harshiv Bisht- Nursery, Aayaan Sinha- Prep I, Yagyna Jorwal- Prep II 'A', Hemant Saini- Prep I, Dhanvi Jain- Prep II 'B', Aryabhan Choudhary- Prep I, Adikritt Jain- Prep I, Rudhav Sharma- Prep II 'A' and Nikhlesh Mandya- Prep II 'C'.

Assemblies @ School

Morning Assemblies

Morning assemblies are conducted for pre primary students so that it helps in establishing a daily routine and structure for young children, which is important for their overall development and sense of security.

It assists children in transitioning from home to school environment smoothly, providing a predictable start to their day.

Teachers Day Celebration

A good teacher is like a candle; it consumes itself to light the way for others.

Teachers' Day, observed annually on 5th September, is a heartfelt tribute to the dedication, passion and transformative impact of educators' work. This celebration originated in India in 1965, commemorating Dr. Sarvepalli Radhakrishnan's birth.

To express gratitude, recognize and honor teachers' invaluable contributions to shaping young minds, fostering personal growth and societal progress, Teacher's Day was celebrated with great enthusiasm. Grade IX and X students started the programme with a welcome speech and emphasized the importance of the day. An energetic dance performance nailed the audience.

The students felicitated the teachers with a token of appreciation and bestowing titles.

This day acknowledges educators' pivotal role in Mentorship, Knowledge Sharing, Inspirational Influence, fostering curiosity and Societal influence.

This day recognized the efforts of the unsung heroes of education and their tireless efforts.

COMPETITION

Show & Tell Competition Pre-primary Wing

The "Show and Tell" activity was conducted to foster confidence, creativity, and effective communication skills among pre-primary students. This engaging platform encouraged students to bring their props and spoke a few lines about it to their peers, teachers and to our honourable Judge. By this activity students developed essential public speaking skills, overcoming initial fears and inhibitions. Through applause and positive reinforcement, their peers and teacher boosted their confidence, promoting self-expression and empathy. This activity helped to create a supportive environment where children felt valued, heard, and motivated to share their thoughts and ideas.

Winners are:

Student Name	Grade	Position
Harshiv Bisht	Nursery	I
Aadhvik Joshi		II
Manasvee Pareek		III
Yug Mathur	Prep I	I
Sehrish Rashid		II
Pranika Kachar		III
Likhil Ra Singh	Prep II 'A'	I
Hridhan Soni		II
Tanishka		III
Kiara Chahar	Prep II 'B'	I
Karvik Nirmal		II
Khadia Jafri		III
Aayansh Singh	Prep II 'C'	I
Abeer Mathur		II
Akshit Sharma		III

The Power of Positive Parenting

As a teacher, I firmly believe that the way we parent shapes the people our children become. In today's diverse world, every family is unique, and there's no single "right" way to parent. However, one universal truth stands out: parenting is about giving your child what you hope to receive in return.

The energy you invest in your child comes full circle. Give love, receive love. Give respect, receive respect. This cycle of parenting is crucial in shaping our children's futures.

Let's consider a simple example: asking your child to brush their teeth. Instead of using anger, disappointment, or commands, try approaching it with love. Say, "Hey, let's brush those teeth together. I want you to have a healthy, happy smile!" This loving approach fosters a nurturing environment, helping your child develop self-esteem, confidence, and emotional intelligence.

By choosing love and care over anger and command, you cultivate a supportive relationship with your child. This encourages cooperation, trust, respect, and affection. As a teacher, I've seen firsthand the positive impact of this approach on students' confidence and empathy.

As parents and educators, we must prioritize positive parenting. Speak kindly, listen actively, and show physical affection. Practice patience and understanding, knowing that mistakes are opportunities for growth.

In conclusion, parenting is a journey, not a destination. By embracing positive parenting, you create a foundation for lifelong relationships built on love, respect, and understanding. Remember, the way you parent today shapes the person your child becomes tomorrow.

PARENT'S CORNER

The Influence of Extracurricular Activities on Child Development

In today's fast-paced world, the role of extracurricular activities in a child's development cannot be under-estimated. These activities, ranging from sports to arts, play a pivotal role in shaping a well-rounded individual.

In my opinion, engaging kids in activities outside the academic curriculum should commence at a tender age to reap the full benefits. Let us discuss some of the rewarding skills that children are prone to gain by indulging in after-school activities.

Certain activities are crucial for developing cognitive abilities. Music, for instance, improves memory and mathematical skills, while chess sharpens problem-solving and strategic thinking. Engaging in these activities stimulates the brain, leading to improved academic performance.

Sports and physical activities are important for maintaining a healthy lifestyle. They not only strengthen the body but also instill discipline and teamwork. Activities such as drama or creative writing allow children to express their emotions and develop empathy. This emotional intelligence is vital for personal growth and social interactions.

By being involved in additional activities, children get exposed to balancing schoolwork

PARENT'S CORNER

and extracurriculars thus learning the valuable lesson of time management. Through these activities children are also educated about the value of hard work and dedication. In conclusion, extracurricular activities play a critical role in the holistic development of children. They nurture the overall growth of the younger generation thereby preparing them for future challenges. Encouraging youngsters to participate in such activities is an investment in their complete well-being and success.
