

SCHOOL Connect

April & May 2022
Grades I to X

From the Principal's Desk

Dear Parents,

"Coming together is a beginning; keeping together is progress; working together is success".

- **Edward Everett Hale**

Our dear children, embracing new possibilities in the new resolutions of the new year, always give us the hope that the future is bright. We see them embodying these possibilities when they showcase their skills in various school activities. The school's newsletter "School Connect" is a medium to familiarise you with all those activities. Some memories have been included in this newsletter to introduce you to all the activities.

To bring awareness among the students, many special assemblies were conducted such as World Health Day, Ambedkar Jayanti, Earth Day, Mother's Day, etc. Giving priority to research, debate and speech style in the school, a session on Youth Parliament was conducted.

In the new session, the students' council was duly selected for the development of leadership ability and through the whole process, the concept of election was also understood by the children.

Let me present to you the first newsletter of the session and urge you to be a part in whatever way you can so that we can impact our learners in an optimum manner.

Jai Hind
Mr. Anurag Sharma
Principal

FROM TEACHER LEAD'S DESK

Developing a student-centered Classroom

Student-centered classrooms are a priority in every school today. We've all heard the phrase before, yet most educators would agree that developing a student-centered classroom is more a necessity and norm these days than a luxury or innovative new approach to teaching.

The traditional classroom where students sit quietly and attentively in their seats, while the teacher pours vast amounts of knowledge into their heads is over.

In the more traditional 'teacher-centered learning' environment, the teacher is the centre of the learning experience and takes the 'active' role of teaching, while the students assume a more 'passive' or receptive role. In contrast, in the student-centered learning environment, the interests of the students' take centre stage and the teacher gives students choice and voice, finding ways to provide learning experiences that focus on what students' value. In the student-centered classroom, students take a more 'active' role in the education experience.

We at Ryan Education School strive constantly to improve our teaching methodology hence, student centric education is our prime focus. We constantly try to integrate technology and build the classroom as a community. Aiming for excellence and creating a better tomorrow is our goal in a nutshell!

The 21st century demand is for a Facilitator.

Ms. Vandita Bhatnagar

EVENTS AND ACTIVITIES AT SCHOOL

EVENTS AND ACTIVITIES

FIRST DAY OF SCHOOL

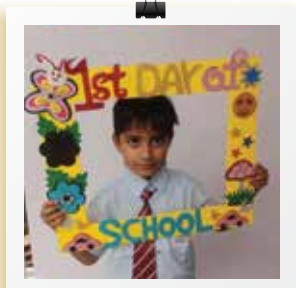

The school came alive on 4th April 2022 and opened its gates to welcome the students for the first day of the new academic session after the pandemic. There was excitement everywhere as students waited eagerly to explore the place which would soon be their second home. The teachers were ready with their action-packed lessons and soon the little hands were busy doing the activities and experiments that were planned for them. It was a fruitful and productive day as the teachers took the kids under their wings and made them comfortable in their new environment. And the school arranged one magic show too by magician Mr. Jagdish in the school's atrium and teachers too conducted first day class activities in class.

FINGER PUPPET ACTIVITY – GRADE I

'Puppets can say things that humans can't.' It encourages storytelling through craftsmanship. The students of Grade I were engaged in a very creative 'Finger Puppet Making Activity' in the art club. Instructions were given to make puppet playmates using coloured paper, buttons, wool etc. Under the guidance of the teacher, students presented innovative and unique puppets, denoting animal puppets. It was a fun-filled activity for the learners.

PAPER COLLAGE ACTIVITY – GRADE VII AND VIII

Our students of Grade VII and VIII explored their creative skills and made cognitive advances through paper collage activity in the art club. With the help of the teacher, they made a beautiful collage with bits of paper.

STEPS OF CROP PRODUCTION – GRADE VIII

Jigsaw is a cooperative learning strategy that enables each student to become an expert on a certain topic, through communication and discussion with others reading the same text, researching the same topic or unit, and then sharing their findings to their original 'home' group. Students of Grade VIII were divided in groups and each group was given a topic. They discussed the given topic and presented their Topic very well thereby fulfilling the objectives of the session.

PLACE VALUE SYSTEM ACTIVITY – GRADE III AND IV

Practical maths activities have huge significance in the learning process. To make the students focus more on mathematics concepts, math activity based upon the Place Value system was conducted for the students of Grade III and IV of Ryan Education School. The zealous involvement of the students was indeed worth praising.

EVENTS AND ACTIVITIES

RAINBOW COLOURING – GRADE I 'A' AND I 'B'

Rainbows are always favourite rainy theme, because they are so bright and happy.

After listening to the Poem of Rainbow, our young learners of Grade I were very excited and couldn't wait for the Rainy season. They wanted to see the rainbow, so our educators provided them with a worksheet of Rainbow. Our young learners coloured the rainbow.

COMPARING NUMBERS – GRADE I 'A' AND I 'B'

To build strong foundational skills in primary grades, it is important to teach the students to work with the numbers. Comparing numbers is one such activity which is important to build number sense in the learners where students can determine more and fewer, greater than, less than and equal to, and putting a group of numbers in order.

For this, one activity was conducted in Grade I where Students learn the number value, by comparing numbers.

Students were given flashcards of a few numbers, and were asked to tell who is having the biggest number and who is having the smallest number.

Students enjoyed it, and learned the concept easily.

MEASUREMENT- MATHS CLUB ACTIVITY

KNOWING WHAT AFFECTS BMI AND HOW TO CALCULATE it is an important tool for helping students understand their own health. Maths club activity from Grade I to V was conducted to let students explore and calculate BMI. In the first session of maths club students learnt about how to measure their weight on a weighing scale.

MANIFESTOS OF POLITICAL PARTIES – GRADE V

Many of us teachers are deeply interested in helping students grapple with and find their own original voices. The learners of Grade V were given a chance to create their own manifesto if they ever get a chance to be elected from their favorite political parties. Children came up with their own manifestos. It was really an interesting activity and kids enjoyed it a lot.

EVENTS AND ACTIVITIES

MAKING OF A WIND CHIME – GRADE IV

Art activity was conducted for the students of Grade IV to make them aware about wind chime.

Through this activity students came to know that a wind chime is a decorative item that can be hung near a door or a window and it makes a tinkling sound. They also learnt about feng shui. This wind chime is related to good luck and positive energy, so they can use it as a gift to their loved ones.

All students participated in the activity with full zeal and enthusiasm.

PROFIT AND LOSS – GRADE V

When it comes to math, a good foundation is essential. Fun math activities for kids can be effective in teaching them basic but essential math concepts.

To make the learners focus more on mathematical concepts, math activity based upon Profit and Loss was conducted for the students of Grade V where students bought and sold goods with artificial currency and understood the concept of profit, loss, selling price and cost price. Students enjoyed it a lot and understood the concept very easily.

FORMATION OF 3 – DIGIT NUMBERS – GRADE II

To make the learners know how many three digit numbers can be made by giving three separate numbers.

The activity was conducted on 11th May'22 for the students of Grade II. After this activity students have the knowledge to make three digit numbers. If we have three separate numbers then how many numbers, we can make by using them differently.

All students participated in the activity with full energy and enthusiasm.

Star Of The Week

Star of the week is an initiative to make every child feel special and celebrate his uniqueness. Every week, a student is designated as 'Star of the Week'. The student's parents visit the class and interact with other students of the class. They share information and anecdotes about their child and hear about their child from his classmates. Apart from creating healthy self-esteem, this activity also facilitates a strong home-school partnership. Stars of the week of April and May months are Vinshi Sethi-Grade III-A, Amaira Parashar-Grade IV, Aaliya-Grade III- B, Purushotam Meena of Grade IV, Kush of Grade III-B, Rishit S. Negi of Grade III-A, Mudra Gautam of Grade IV, Yagna of Grade III-A, Aarvi Singh of Grade III-B and Ananya Arya of Grade I-A.

ASSEMBLIES

WELCOME ASSEMBLY ON FIRST DAY OF SCHOOL – GRADE X

The school came alive on 4th April 2021, after a long gap of 2 years. Everyone welcomes the students for the first day of the session 22-23 with new hopes. A special assembly was conducted by Grade X students to welcome their friends. The assembly began with the school choir brightening the whole atmosphere with their mellifluous songs. To warm up the students, some stretching morning exercise was taken by Sports Teacher Mr. Bhati. This was followed by Thought for the day and News. Post which, students stressed on the real meaning of the word welcome with the help of beautiful songs to welcome children to the new session. Also we celebrated birthdays in the assembly of those students whose birthdays fall on 4th April 22. Lastly, the National Anthem was sung by all. Overall, the assembly was conducted smoothly.

SPECIAL ASSEMBLY ON HSCP AND SCHOOL RULES – GRADE IX

At Ryan Education School Jaipur, we believe that protecting the interests of our children is non-negotiable, we adopt high standards of safety policies to ensure that our students have access to a learning environment that is safe, secure and enjoyable. Child safety can be achieved by the issuance and enforcement of regulations as well as through the development of voluntary standards and guidelines enabling injury prevention. So based on the theme 'HSCP and School Rules' the students of Grade IX conducted a special Assembly on 5th April 2021 on HSCP and school rules. The assembly commenced with the 'Morning Prayer'. Thought of the day followed by news Headlines. HSCP And Safety Rules followed at Ryan Education School were Briefed by Ms. Neelam Joshi. The Entire school took a 'Safety Pledge' to ensure self-safety, family safety, community safety and Nation safety.

SPECIAL ASSEMBLY ON WORLD HEALTH DAY – GRADE VIII

'World Health Day'

'It is health that is the real wealth and not the pieces of silver and gold'. Grade VIII presented their morning assembly under the guidance of their Class Teacher. The assembly began by seeking the blessings from Almighty with Gayatri Mantra and school prayer which was followed by the following activities: -

Anchoring by Priya

ASSEMBLIES

Thought of the day was read by Manvendra, News of the day was read by Raghav, Poem on world health day by Pragya.

The aim of the assembly was to convey the message of keeping oneself healthy by adopting a healthy lifestyle.

Lastly, the National Anthem was sung by all.
Overall, the assembly was conducted smoothly.

SPECIAL ASSEMBLY ON AMBEDKAR JAYANTI - GRADE VII

Saluting the spirit of nationalism and valuable contributions made by prominent Indians is the core ethos of our school. The students of Grade VII celebrated Ambedkar Jayanti on Friday 13th April, 2022. A special assembly was conducted to mark the special occasion. Dr. Bhim Rao Ramji Ambedkar was the founder architect of the Indian Constitution. He was an eminent jurist and politician. The students saluted this great leader on his birth anniversary and spoke of the greatness of Dr. B.R. Ambedkar. They also threw light on the life and works of Dr. Ambedkar, which came out as a fitting tribute to a great leader of our country. The quiz was conducted by the students of grade VII based on the important facts of Dr. Ambedkar.

SPECIAL ASSEMBLY ON EARTH DAY - GRADE VI

'Mother Earth is the culmination of multiple and diverse energies, which is brought together to create a rich aesthetic experience with a message of harmony and co-existence'.

A special assembly was conducted by students of Grade VI on the occasion of earth day to show their concern for the environment. The assembly started with the prayer followed by 'Gaytri Mantra'. To dedicate this day to Mother Earth, a beautiful poem was presented by Anshit Sharma which was about how we can invest in our planet to protect and make it green and happy.

A beautiful song was presented by students of Grade VI about how to protect our planet Earth by just changing our life-style and following some measures to protect and save our Mother Earth.

The assembly concluded with the address by the Principal Sir who motivated and enriched the young minds about the ways in which each one could contribute to safeguard the Planet Earth. The assembly was dispersed after the National Anthem.

ASSEMBLIES

SPECIAL ASSEMBLY ON LABOUR DAY – GRADE V

‘Without labour, nothing prospers.’

This year on the 29th of April, Grade V students gathered everyone to celebrate and admire the people who aid us in our daily activities as well as help us to build and lead a good life. The occasion was none other than Labour’s Day where workers are praised everywhere throughout the world for their commitments and devotion.

The assembly began with Grade 5 standing wearing handmade badges honouring different workers of the society.

Continued by seeking blessings from Maa Saraswati and school prayer. This was followed by students sharing thoughts of the day, word of the day and news headlines.

Soon after it was a speech to acquaint everyone with the importance of labour day as well as a brief background of it.

Students performed a skit to acknowledge the workers who are comparably less appreciated despite their prime role in society, accompanied by an English recital.

The class gave handmade postcards & chocolates to all the service helpers in the school showcasing love and respect.

The assembly ended with Principal Sir giving a token of gratitude to all the workers working in the institution.

SPECIAL ASSEMBLY ON HEALTH AND HYGIENE – GRADE IV

‘A healthy mind resides in a healthy body’

Hygiene is as important as ABC Always Be Clean. If you want to impress, please stay fresh. With this theme, the Health and Hygiene assembly was organized on 5th May 2022 by Grade IV, to mark the significance of good health. The assembly began with the prayer then a beautiful poem was presented by Sakshita which was on health and hygiene. A speech represented by Rishabh after that student showed slogans on awareness for health and hygiene. Whole assembly was hosted by Amaira and Triyuta. Principal sir concluded the assembly with his closing speech by applauding the children for their wonderful performance. He expressed his thoughts about taking good care of our health by mindful eating and exercising well each day.

ASSEMBLIES

SPECIAL ASSEMBLY ON MOTHER'S DAY – GRADE III

'When you are looking at your mother, you are looking at the purest love you will ever know.'

This year on the 9th of May, Grade III- A and B gathered everyone to celebrate and admire the mother.

She is a symbol of unconditional love, a mother who sacrifices everything for her children. She dedicates the whole life for her children without accepting anything in return.

The assembly began with seeking blessings from Maa Saraswati and school prayer.

This was followed by students sharing

Thoughts of the day: - Aarvi Singh

Word of the day: - Ansh Jain

News headlines: - Avani Bhatnagar

Accompanied by an English recital by Kush on Mother's. Soon after it was a speech by Rishit Negi to acquaint everyone with the importance of Mother's Day.

In the last a wonderful dance performance by Mother -daughter duo (Vinshi and her Mother Shilpa ma'am) on 'Aisa Kyu Maa' made all of us speechless.

In the end, a small token of love was presented by Grade 3 students to all the mothers.

Happy Mother's Day to everyone.

Activities

VALEDICTORY CEREMONY

'May the road rise up to meet you. May the wind be even at your back. May the sun shine warm upon your face and the rain fall softly on your fields. And until we meet again, may God hold you in the hollow of his hand'.

The atrium of Ryan Education School echoed with the blessings on the morning of 16th April 2022 when Ryan Education Family came together to bid farewell to the outgoing 2021 batch of Grade X students. It was the morning of mixed emotions for all present at the school atrium to witness the official send-off for the Grade X students at the valedictory ceremony 2022. The day was a fiesta devoted to the years spent together with friends and teachers to reminisce joyous moments.

In Valedictory ceremony chief guest was Mr. Pushpendra - Jan sevak of Sanganer and guest of honour was Mr. Shankar Bajdolia - Parshad of Sanganer commenced the ceremony by lighting lamp. Grade X students did a ceremonial March followed by lighting candles where Principal Sir lit the master candle and addressed all presenters including parents, teachers, guests and students. Then academic staff blessed students by giving mementoes and badges. Then students felicitated teachers by giving them roses.

Lastly, the ceremony was concluded by Grade IX students as they sang a farewell song for their seniors and then the national anthem.

In the end everybody took lunch together arranged by school.

YOUTH PARLIAMENT

Public speaking and listening skills lead the path of Leadership.

By organizing this Activity in school learners will be able to develop the ability of Rational thinking, Logical reasoning and Public speaking.

Learners of Grade X presented the Mock parliament session on 23rd April 22 with great zeal and passion. The topic of the discussion was Article 370 of the Indian constitution.

Lucky sharma was the speaker of the parliament. UPA members were: - Raghav, Akshit, yashasvi and the NDA members were: - Namah, Jaisingh, Chhavi and Prateek.

Their confidence while speaking shows their research and efforts for this session.

It was a treat for the eyes to watch them arguing and showing differences of opinion with so much equanimity.

Activities

STUDENT COUNCIL ELECTION – CAMPAIGN AND VOTING

Students Need Their Own Voice. So, Make the Right Choice!

By voting!

Leadership is not about the next election, it's about the next generation. The task of a true leader is to get his people from where they have not been. Exactly was the case on the campaigning day wherein all our aspiring nominated candidates spoke about themselves in front of the entire school, seeking their support and votes. All the candidates sounded promising and tried their level best to get the confidence of their friends and teachers alike.

After the vigorous campaigning done by the candidates on 7th May 22 who nominated themselves for different positions of leadership the polling was done online using a google form. The student council election provided a rich learning experience about the election procedure and democracy.

FIELD TRIP TO QUALITY KING – GRADE I

A great way to get students excited is to take them on a field trip that reinforces what they are studying. A supermarket is an optimal choice for a field trip for students because of the variety of topics that can be focused on in the grocery store. Teaching young students to make healthy choices can impact the entire family, so it's important to choose activities and messages with care.

For the same purpose, a field trip was planned for our young learners of Grade I to Quality King supermarket on 10th and 11th May 22.

Through this visit they have learnt how to make good choices, intake of healthy diet, variety in food items.

Last but not the least, the very important place after shopping is BILLING COUNTER. They got to know about the billing process also.

It was a very fun-filled visit to our learners.

SAVE SOIL CAMPAIGN

Land is not merely a soil, it is a fountain of energy flowing through a circuit of soils, plants and animals-Aldo Leopold

Soil Health Day is on June 23rd. Isha Foundation has launched a campaign to save soil. The aim is to promote awareness among common people and the government to take all the necessary measures to save soil. So, for this, save soil presentation was organized by Isha foundation for the children of Grades IV to X on 12th May 2022.

Piles of letters of concern were collected from the future of India to make the government launch a campaign to SAVE SOIL. It's the social and moral responsibility of teachers and parents to contribute to save the soil. This will motivate kids to take this noble cause for humanity continuously.

Activities

PARENTS – TEACHER MEET

'Together we may give our children the roots to grow and the wings to fly.'

A parent Teacher Meeting cum Parent Orientation Programme for Grades I to X was held on 14th May 2022 by students where students presented presentation related to assessment pattern, parent portal app, annual planner, yardstick, ELEP and many more activities of school and the class boards i.e. collaterals, student display board and subject board.

Parents were happy to see their children presenting school activities via presentation.

And teachers discussed the performance of students with their parents. Parents were given feedback on their ward's performances. It was a great interaction between the teacher and the parents for the development of their children where they discussed both the strengths and areas of improvements. Parents' suggestions were noted. The PTM came to an end with the conclusion that joint effort, mutual understanding and cooperation of parents and teachers is very important for the proper nourishment and progress of students.

INNOVATION LAB ACTIVITY – MAKING DIFFERENT SHAPES WITH STICKS

Innovation Lab in our school is a place where students explore, discover, innovate, create and learn. It aims to expose students to science, technology from a very young age to develop critical thinking.

In the starting of the innovation lab session, students made different shapes with sticks. They made different geometrical shapes with the sticks as well as houses with the corrugated sheet. They were very excited while doing the activity.

CELEBRATIONS

EARTH DAY CELEBRATION

Every year, Earth Day is celebrated on 22nd April at RES Jaipur to remind the students of their duties towards 'Mother Nature.' As a part of environmental education, 'Go- Green' initiative was taken to engage the whole school community in making a difference. Earth Day was celebrated through educational and action-oriented activities that were fun.

Students at RES celebrated the power of green by mellifluous things in the morning assembly. Students planted various plants to show how we can think of nature conservation. Banners and colourful charts were put up, children learnt the importance of preserving the planet earth. Students expressed their views by making posters and by writing slogans.

MOTHER'S DAY CELEBRATION

Mother is the heartbeat in the home and without her, there seems to be no heartthrob....

Our young learners know that mother is the backbone of the family, who have the magic touch to heal all the wounds.

Lockdown is not a bar for these children, in spite of so many hurdles our young learners celebrated Mother's Day on 7th May 22, they made beautiful cards for their mother and recited beautiful rhymes and sung songs also. All the mothers were asked to wear green dress to tie in with our mother Earth.

Green colour is the colour of life, growth, nature and energy and mother has all these qualities. Our young learners along with their beautiful mother's made this day great.

No. barrier (Virus) can pause our celebration...

Happy Mother's Day.

COMPETITIONS

ENGLISH LANGUAGE DAY

'What's in a name? that which we call a rose. By any other name it would smell as sweet.'

- William Shakespeare

English Language Day is celebrated annually on April 23rd, as the birth and death date of William Shakespeare. The aim of the day is to promote awareness about the history, culture, and achievements associated with the language. It is one of the most spoken languages in the world. Poem competition titled 'Mother' was organised in school on one criteria i.e. Poem was supposed to be 'students' own creation'.

Received a pool of poems from our little poets and Tanu (Grade VII) secured 3rd position, Jiya (Grade X) secured 2nd position and Chhavi (Grade X) secured 1st position.

STUDENT ACHIEVEMENT

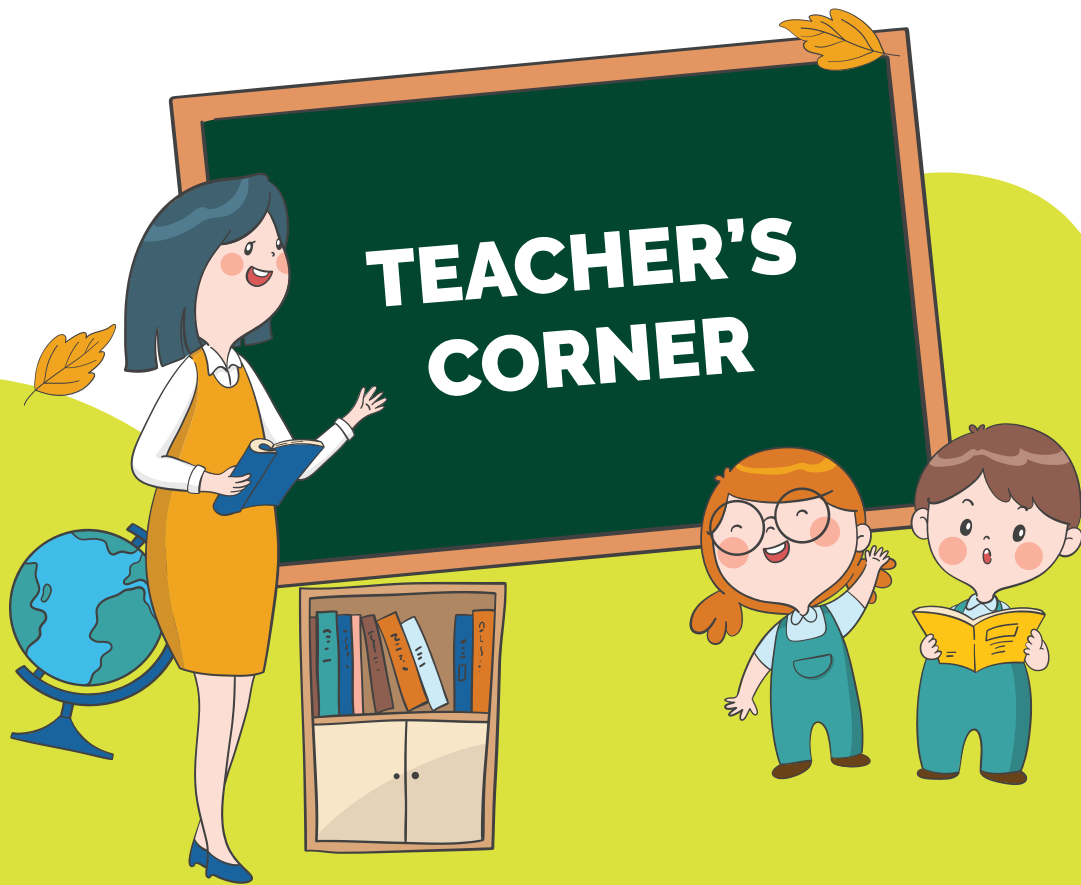

Neel Sharma and Mridul Vyas of Grade IV are being selected for the 2nd round in State level inter school drawing & colouring contest conducted By Rajasthan Pollution Control Board and SIP Academy.

ENGLISH LANGUAGE ENRICHMENT PROGRAMME

In order to enrich the language environment at Ryan Education Schools, and to increase the students' opportunities to use and be exposed to English, through listening, speaking, reading and writing we successfully carry out an English Language Enrichment Programme (ELEP) every year. Under this programme Word of the Day (WOTD) is shared every day in the class groups by the teacher. Students are given the opportunity to use the word in the classrooms in realistic and relevant contexts for which they are allocated tokens. The total number of tokens allocated in April and May month were 1510.

GururBrahma GururVishnu GururDevo Maheshwara Ha Guru Saakshaat ParaBrahma Tasmai Shri Gurave Namaha

A teacher is a person who has to fill many roles. From being a mentor, to a facilitator and a learner.

There are many other roles of the teacher which are adopted depending on the needs of the learners. With young learners the teacher might take on the role of a parent or a friend when they are unhappy or unwell. With adult learners the teacher roles involve motivating students and maintaining discipline in addition to being facilitator.

In my teaching experience I have tried to fulfil all these roles with utmost dedication and sincerity.

I believe that a teacher is a bit different than others. I believe the student teaches a lot of things to us every day. Every day we explore a new side of ourselves and get inspired to achieve more. In class many times a student's answer is out of the box which makes me curious and pushes me to meet their expectations. It motivates me to learn more, participate actively and indulge in discussions which enhance their morals and ethics.

Every student has something to offer and their set of capabilities and capacity. This gives me a window to explore different mindsets and adapt accordingly.

As a teacher, ensure that there is equal engagement between my students and I. An optimum blend of new technology with old teaching methodology results in all round development of the student and nurtures their critical thinking.

I have been teaching for the past 17 years and since then this process of teaching and learning is constantly going and I hope it never ends.

I believe teachers and students are each other's supplements.

**Ms. Shalini Chaturvedi
Primary Hindi Teacher**

STUDENT'S CORNER

GLOBAL WARMING

Global Warming is a gradual increase in the temperature of the earth's surface and atmosphere all around the world. It is caused by the rise in Carbon Dioxide levels in the atmosphere, which leads to an increase in temperature. Global Warming has been accelerated due to mass deforestation activities by man. Frequent droughts, storms, heat waves; rising sea levels, melting glaciers & warming oceans are the effects of global warming which directly harm animals, destroy the places they live and wreak havoc on people's livelihood and communication. Plants use carbon dioxide to prepare their food and release oxygen as a by-product. So if we have enough plants they will absorb the excessive carbon dioxide from the atmosphere and decrease the level of global warming to some extent. Planting more trees can reduce the carbon dioxide levels in the atmosphere and will result in a decrease in global warming.

Abeer Awasthi
GRADE IV

PARENT'S TALK

Honourable principal sir/management/ teachers & all learned members of Ryan Education.
Well, it's an opportunity to share some words about your kind organization.

Further I have found the curriculum supported by the Oxford books to be a welcome combination of knowledge and learning.

I appreciate all teachers that they are justifying their duties. More about teachers, here I would like to say that you are the roots of a school, and the responsibility of nurturing the students lies on their shoulders.

What they are doing is such a remarkable note for them.

Politeness, decency, command on subjects and in all respective fields.

The guardian can see how hard working and practical teachers are here.

The administration too functions seamlessly.

They are like a cake which has two parts,

- Outer side (looking)
- Inner side (quality)

In both the admin team is performing in the right direction.

Last but not least, regarding the infrastructure of the premises, we see that it is too spacious to generate a healthy environment for everyone.

In conclusion, a proper stunning module your team is carrying.

I feel grateful to have my son in your school.

I wish for your bright future & cheers to Ryan Education group.
